- Corporate HQ'S
- High Risk Buildings

# ARC-AT300S

ARC presents the new ARC-AT300S Multi-Zone Metal Detector. This unit provides superior detection by splitting the body into 24 detection zones providing superior head to toe detection capabilities.

The ARC-AT300S has 12 pre-set programmes to provide a speedy no hassle set up, which enables maximum detection capabilities regardless of the environmental conditions and potential local interference.

IP65 rated, and with up to 8 hours continuous use from a single battery charge, this unit can be used in all weathers giving the user full confidence of both operation and detection capabilities

# ACCESS RISK CONTROL

## KEEPING PEOPLE SAFE
